

Memorials within the Garden of Remembrance

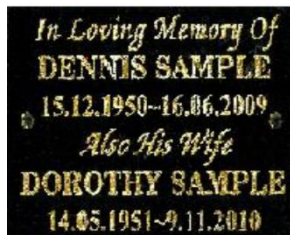

As it is not possible to have a memorial placed where the cremated remains are scattered, we have various memorials available which provide a lasting, commemorative tribute to loved ones. Memorials within the Garden of Remembrance in the form of engraved granite plaques displayed on the raised sides of the water feature, trees located on the scattering beds and rose shrubs.

The plaques, measure 6" x 4" (150mmx100mm) and can have up to six lines of inscription engraved and lettered gold. There is a space for a maximum of 116 letters, spaces, or figures on each line and a grid is provided for you to map your requirements within these limits. No deviation from material, colour of plaque or inscription can be permitted. The final size of the lettering will be determined by the number of characters on each line.

Memorials will be within the Garden of Remembrance. New plaques can be ordered to incorporate other names. A charge will be made for amended plaques. Plaques are placed in the Garden of Remembrance within approximately four weeks of ordering. Plaques will be allocated in strict rotation and once fitted cannot be re-sited.

Because of the limited space available within the Garden of Remembrance and to protect the aesthetic appearance of the scheme, floral tributes and other items cannot be accommodated and will be removed. However, floral tributes may be placed within the designated Floral Tribute Area situated within the Garden of Remembrance. The public's cooperation in this regard would be much appreciated.

Wall plaque

A granite wall plaque (6"x4.") is available to purchase and the price and a total of 116 letters of inscription. Plaques are displayed on the raised sides of the water feature.

Rose shrub with plaque

The roses are already planted and established ready for dedication. The plaque and stainless-steel spike are included in the purchase price.

PLEASE NOTE – ♦ The Rose shrubs do on occasions fall victim to disease and need to be removed. Should this occur we will plant a new rose shrub as close to the original as possible.

Individual Memorial tree

This memorial includes the purchase of a plaque and stainless-steel spike. There are several trees available for dedication within the Garden of Remembrance.

If the memorial tree has to be felled. We will endeavour to plant a new tree as close to the original as possible. Where the original tree was mature, a stump will be left above ground, the grantee has the choice to place their plaque adjacent to the newly planted tree or the stump of the original.

If you would like to discuss the memorial options, please contact the Parish office.
